ELECTRIC RESISTANCE PURCHASE AND CONTROL AGREEMENT

This is an Agreement, made and entered into this ___ day of _____, 20____, by and between Prairie Energy Cooperative (Cooperative) and _____ (Member), the terms of which are as follows:

1. Cooperative is a public utility that (a) provides electric utility service at retail to its Member-consumers, and (b) sells electric resistance heat to its Member-consumers. Cooperative agrees to sell to Member _____kW of resistance heat.

2. Member agrees to: (a) purchase the electric resistance heat; (b) install the electric resistance heat identified by the Cooperative's records as location no. _____; and (c) purchase from Cooperative and pay for all electric energy required to operate the electric resistance heat.

3. Member acknowledges that they will be provided a rebate in the amount of \$20 per kW (maximum 20 kW). Member further agrees that the electric resistance heat: (a) must be permanently installed; or (b) hard wired; or (c) must be added to existing heat rate load; (d) member shall authorize Cooperative, at Cooperative's expense, to install, operate, maintain, and replace as necessary, control equipment that will allow Cooperative to interrupt electrical service for future load management.

4. Member agrees that neither the Cooperative nor its power supplier shall be liable for any loss, costs, or damages caused by or resulting from Member's purchase, installation, operation, or use of the electric resistance heat, or Cooperative's interruption of electrical service to the electric resistance heat as authorized by this Agreement.

5. The Cooperative shall have the right to cancel this Agreement in the event Member fails to install the electric resistance heat or tampers with or modifies the load control equipment. Member may cancel this Agreement by giving Cooperative not less than thirty (30) days advance written notice of cancellation. In the event of cancellation by Cooperative or Member, Member shall allow the Cooperative to remove the load control equipment and shall pay the Cooperative's cost of installing and removing said equipment.

This Agreement is effective as of the date and year first above written, and shall remain in effect for the useful service life of the electric resistance heat, unless sooner cancelled pursuant to paragraph 5 of this Agreement.
